Stakeholder and Community Engagement Summary

The development of comprehensive Local and Regional Plans entails building broad and inclusive partnerships with regional and local entities in a variety of sectors. This includes engaging with employers, labor organizations, and community-based organizations, as well as *Workforce Innovation and Opportunity Act* core, required, and strategic program partners. This will ensure the inclusion of person-centered approaches to address multifaceted barriers to employment by utilizing input from the communities.

Stakeholders participating in the planning process should include, but are not limited to, employers, labor organizations, education partners, human services and housing partners, as well as community-based organizations that provide services to target populations, such as justice-involved, English language learners, refugees, immigrants, youth, older adults, veterans, people with disabilities, and any other entities supporting historically unserved or underserved communities.

Using the template below, Regional Planning Units and Local Workforce Development Boards should provide a detailed description of how meaningful stakeholder involvement and community engagement was achieved when developing the Regional and Local Plans. This summary should be included as an attachment to both the Regional and Local Plans.
